Introduction

ABOUT THE TEST

The Duolingo English Test is an English test designed for you—**convenient, fast, affordable, and trusted around the world.** The test is brought to you by **Duolingo**, the most popular way to learn a language online. Duolingo's mission is to develop the best education in the world and make it universally available.

The Duolingo English Test is:

Convenient
Take the test online via a computer and webcam at any time, anywhere in the world.

Fast
Complete the test in an hour and receive your results in 2 days.

Affordable
At a fraction of the price of other tests, you can share your results with an unlimited number of institutions for no additional cost.

Trusted
Accepted by thousands of top institutions around the world.

How it works

The Duolingo English Test uses the latest technology to make the test accessible, accurate, and secure. The test was developed by language testing experts using artificial intelligence (AI) to offer a modern testing experience built on research.

Accessible
In addition to being available online, on demand, the test is a computer adaptive test. This means that the difficulty of the test questions changes based on each test taker's performance. You can receive an accurate score in under 1 hour of test taking.

Accurate
Scores are calculated by the grading engine, which is trained to understand language ability the same way that expert human raters do.

Secure
With the help of AI, multiple human proctors detect instances of rule breaking.

Results are available in 2 days and include your overall score, subscores, and writing and speaking samples. You can share this with an unlimited number of institutions for no additional cost.

Who accepts the test

The Duolingo English Test is used as proof of English proficiency by institutions and employers around the world. It is recognized by thousands of institutions in over 100 countries, and it is commonly accepted for admissions, placement, progress, or exit requirements.

To see the full list of accepting programs, visit **englishtest.duolingo.com/institutions**. Always check a university's website to understand their English proficiency requirements.

VISA ACCEPTANCE - AUSTRALIA

Under Australia's visa framework, most students with an offer from a university do not need to provide English proficiency scores to obtain their visa.

Some nationalities are, however, required to do so. Please check the immigration document checklist tool to see English requirements and acceptable tests for a student visa (**immi.homeaffairs.gov.au/visas/web-evidentiary-tool**).

If an English test is not requested on the document checklist, students can take the DET, if the university accepts it, for their visa and university application.

VISA ACCEPTANCE - NEW ZEALAND

If you're applying to a New Zealand university to study an undergraduate or postgraduate degree and they accept the DET, you don't need to take another test to obtain your visa.
